

why **APPLE ESTATES?**

Apple Estates

Apple Estates is a family owned and operated real estate business established in 2002. The family has an excellent local reputation and opened our first business in 1985, since which time we have become one of the most reputable firms in the Fethiye region.

Apple Estates has specialized in new and second-time property sales, but more recently have become involved in exclusive home building and construction. The business has grown so rapidly in the past 12 months that we have now opened second office for maintenance and lettings.

Inspection visits

We offer a personal service and we will discuss, in-depth, your exact property requirements. This ensures that we can tailor-make your inspection visit to suit your individual requirements.

As part of our service, we can also organize accommodation and transfers to and from the airport.

You'll be escorted, not only to see the properties you have expressed interest in, but also to some of the attractions and places of interest, so you really get a feel for the Fethiye area.

It is Apple Estates policy to be open and honest at all times and not to make you feel pressurized at any stage in your decision path. We want your inspection visit to be relaxed, so that you make the right decision and also enjoy your visit to Fethiye.

This means we do not pre-subsidise any visits, ensuring that no pressure is applied, or you feel obliged in any way. In the unlikely event you don't like any of the properties we have to offer, we'll leave you alone to enjoy the rest of your stay.
